## **SUSTAINABLE BUILDINGS**

With excellence in design and highest quality manufacturing, ShedUp modular buildings can be configured to many different lengths and double storey.

We can supply, deliver and install with all necessary inclusions; carpets and flooring, wall panelling, insulation, split air-conditioning, electrical wiring, lighting, plumbing, hot water services, pc items, cupboards, shelving, verandahs and stairs.

*Mt Annan School Complex – December 2008*

02 4677 3755 [www.shedup.com.au](http://www.shedup.com.au)

## DESIGN

Professional, environmentally sustainable, design and engineering service.

## CONSTRUCTION

Highest quality construction methods and materials. Adherence to "Standards", rigorous "Quality Assurance".

## INSTALLATION

Project managed installation. Delivered site ready to connect to utilities.

Modular buildings have many and varied applications for residential, commercial, industrial and educational industries. Our portable buildings can be used as offices, training rooms, ticket booths, laboratories, first aid rooms, clean rooms, storage rooms, bathhouses (up to 250 men) and sales offices.

Accommodation units for domestic, holiday, rural and remote workforces can include separate living-dining-kitchenette and bedroom with ensuite for fully self contained living space.

*Iron Cove Bridge Construction Facilities – July 2009 Offices, bathrooms, first aid, kitchens, storage indoor & outdoor eating areas.*

# SHED UP

PORTABLE BUILDINGS

## FAST, COST EFFECTIVE AND INNOVATIVE

Modular buildings can be manufactured in a few weeks, delivered by trucks with HIAB or carried to difficult areas by helicopter, and installed within a few hours. In remote areas where trades people and material delivery is difficult and when time is of the essence, portable, fully finished.... modular buildings are the only answer.
